## NOTICE TO HAULERS

### **SUBJECT: HPOWER UNACCEPTABLE WASTE LIST AND PPE REMINDER**

Covanta staff members have noticed an increase in loads containing unacceptable waste (UAW). Please review the attached UAW list for Covanta HPOWER.

Any loads containing UAW may be partially or fully rejected at the scalehouse or the tipping floor and may result in a temporary or permanent ban of the hauler.

As an additional reminder, all personnel on the tipping floors are required to wear the following PPE as a minimum:

- ) Hard hat
- ) Safety glasses
- ) Work gloves
- ) Safety shoes
- ) Hearing protection
- ) Trousers/pants and sleeved shirt
- ) High visibility vest or shirt

Please ensure all drivers and/or personnel that are required to exit their vehicle on the tipping floor have the above PPE as a minimum. Any personnel without the proper PPE may be denied entry to the tipping floor.

We appreciate your cooperation and understanding.

Mahalo,

*Tony Waldo*

## **UNACCEPTABLE WASTE FOR H-POWER**

1. White goods including stoves, washers, dryers, refrigerators, water heaters, steel cabinetry, etc.
2. All construction or demolition debris or waste, including concrete blocks of any size or type, rebar of any size, corrugated metal siding, structural steel and scrap iron to any dimension, chain, metal/plastic pipes, sheet rock, roofing and road tar, drywall, banding material, treated lumber (including wood pallets using treated wood), etc.
3. Land clearing debris including large tree stumps, dirt, compost, unearthed stone, etc. Loads containing greater than 25% of commercially generated green waste and greater than 50% of household-generated green waste.
4. Automobiles, motorcycles, ATVs, motorized carts, vehicle parts, including drive line components such as truck or auto engines, transmissions, rear axle assemblies, front axles and suspension parts and batteries, fuel tanks, fenders, hydraulic hoses, wheels, and rims. Tractor or large truck tires of any kind.
5. Wire and cable, including steel cable, wire rope, electrical transmitting wire of any kind.
6. Marine vessels in whole or parts, motors (inboard and outboard), fiberglass segments, mooring rope and lines, unprocessed marine cleanup debris containing uncut fishing ropes, netting, etc. Valves or machine parts from ships/boats.
7. Large quantities of carpeting and bulk fabrics either rolled or loose.
8. Large bolts and bales of any kind.
9. Uncrushable, noncombustible, oversized material with dimensions greater than 3ft in any plane e.g., large/oversized tires, bathtubs, bulk metal items of any kind, large metal/plastic pipes, uncut irrigation tubing, glass, shopping carts, lawn mowers, etc.
10. Machinery and machinery parts of all descriptions such as hydraulic pumps, gear boxes, steel shafting, bearings, gears, valves, springs, etc. (other than small household appliances).
11. Containers or drums containing unused or waste chemicals, propane, oxygen, acetylene tanks and combustible liquids including fuel, crankcase oils, cutting oils, cleaning fluids, paints, acids, poisons, and similar materials.
12. Hazardous wastes - any item so marked, including chemical or radioactive materials, universal wastes, e-waste, lithium batteries, etc.
13. Untreated infectious, biological and pathological wastes, animal carcasses
14. Explosive materials.
15. Large quantities of sulfur containing material.
16. Liquid wastes.
17. Soils and powders - sacks or containers with any type of solid or powdery debris, combustible and non-combustible.
18. Semi liquid and bulk quantities of food waste which may be a health hazard or detrimental to the process equipment.
